

Presenter	(#) Title	Date	Time	Session
<b>Trevor Crowell*</b>	Session Chair	July 21	3:00 - 4:30p	PC1205 Session 5: The changing landscape for cure – Gene therapy and long-acting antivirals
<b>Lydie Trautmann*</b>	Key messages from 2nd Consensus Workshop on ATI in HIV cure trials	July 21	3:45 - 4:05p	PC1205 Session 5: The changing landscape for cure – Gene therapy and long-acting antivirals
<b>Trevor Crowell*</b>	Human data on CNS penetration by VRC01 in studies from East Africa and Thailand	July 22	7:35 - 9:00a	SAT007 Impact of broadly neutralizing antibodies on HIV CNS reservoirs: Potential benefits, challenges and risks
<b>COL Julie Ake*</b>	Ask the Expert Department of Defense session - featuring MHRP Leadership	July 23	10:45 - 11:30a	PEPFAR Booth #409 in Exhibition Hall
Vamsi Vasireddy	(TUPEF668) One year into the Anti-Homosexuality Act in Uganda: Lessons learned on sustaining HIV services delivery to the marginalized populations	July 23	12:00 - 1:00p	Track F3 - Human rights and responses to HIV
Sarah Konopka	(TUPEC190) Predictors of CD4/CD8 T-Cell Inversion After 96 Weeks of ART Initiated During Acute HIV	July 23	12:00 - 1:00p	Track C4 - HIV prevention research
<b>Amobi Onovo</b>	(TUPEB353) Mapping the Future: Leveraging Lasso Regression and GWR to Guide HIV Testing and Prevention Strategies in Tanzania	July 23	12:00 - 1:00p	Track D3 - Social, political, legal and behavioural determinants of health in different contexts
Carlo Sacdalan	(TUPEB112) Dolutegravir vs efavirenz: Comparison and factors associated with viral blips in an acute HIV infection cohort study	July 23	12:00 - 1:00p	Track B6 - Antiretroviral therapies and clinical issues in adults
<b>Julius Tonzel</b>	(WEPEB151) Factors associated with COVID-19 vaccine hesitancy among people vulnerable to HIV in two communities in Western Kenya	July 24	12:00 - 1:00p	Track B12 - COVID-19, conflict and climate
Christof Geldmacher	(WEPEA035) High-risk human papillomavirus persistence and incidence among women living with HIV in the African Cohort Study	July 24	12:00 - 1:00p	Track A6 - HIV-associated viruses, co-infections and co-morbidities
Stephanie Hackett	(WEPEB134) Accelerating progress in pediatric HIV and elimination of vertical HIV transmission in seven PEPFAR focus countries, October 2022-September 2023	July 24	12:00 - 1:00p	Track B8 - Antiretroviral therapies and clinical issues in neonates, infants and children
<b>Abdulwasi Bolaji Tiamiyu</b>	(WEPEB428) HIV-related discussions with sex partners by Nigerian transgender women and men who have sex with men	July 24	12:00 - 1:00p	Track D5 - Key populations and other vulnerable populations: Behavioural, social and cultural issues and contexts
Jennifer Chavez	(WEPEB091) Inside out: inflammation in acute HIV predicts persistent depressive symptoms despite antiretroviral therapy	July 24	12:00 - 1:00p	Track B4 - Co-morbidities and clinical complications of HIV and antiretroviral therapy
<b>Seth Frndak*</b>	Neurocognitive trajectories among a young adult cohort from four African countries: associations with HIV and food insecurity	July 25	10:41 - 10:49a	OAB21 Young people age too!
<b>Morgane Rolland*</b>	Session Co-Chair	July 25	12:00 - 1:00p	SAT101 HIV evolution and implications for vaccine design and treatment
Carlo Sacdalan*	The importance of established cohorts to understand HIV-1 molecular epidemiology	July 25	12:25 - 12:35p	SAT101 HIV evolution and implications for vaccine design and treatment
Nitiya Chomchey	(THPEB140) Resilient Viral Load Suppression in an Acutely-Treated Cohort of People with HIV During the COVID-19 Pandemic in Bangkok, Thailand	July 25	12:00 - 1:00p	Track B12 - COVID-19, conflict and climate
<b>Amobi Onovo</b>	(THPEB113) Prevalence of Depression and Suicidal Ideation among Adolescents living with HIV on antiretroviral therapy in Kenya and Tanzania	July 25	12:00 - 1:00p	Track B7 - Antiretroviral therapies and clinical issues in adolescents and young adults
Nnamdi Ifechineke	(THPEB063) Optimizing the WHO four symptoms screening to Improve the Presumptive Yield and the Diagnosis of Tuberculosis among Persons Living with HIV in Military Hospitals in Nigeria	July 25	12:00 - 1:00p	Track B3 - Co-infections (including opportunistic infections)
<b>Matthew Romo*</b>	Dolutegravir-containing antiretroviral therapy and incident hypertension: findings from a prospective cohort in Kenya, Nigeria, Tanzania, and Uganda	July 26	10:49 - 10:57a	OAB34 Co-morbidities: The heart of the matter
Bianca Alvarez	(EPC055) Pediatric HIV viral load coverage and suppression in PEPFAR-supported sites in Mozambique, Nigeria, Tanzania, and Zambia, 2021-2023	on-demand	on-demand	Track C - Epidemiology and prevention science - E-poster
