

MHRP and Collaborators at AIDS 2026

PRESENTER	TITLE	DATE/TIME	SESSION
Lydie Trautmann*	Keynote: Building capabilities in clinical trials in different settings	Sunday, July 26 09:30	Pre-conference Session: Opening and setting the scene
Emmanuel Baja*	Gaps in the PrEP cascade among adolescent and adult males with behavioral risk for HIV in a community-led facility in Metro Manila, Philippines, 2024-2025 (TUPEC223)	Tuesday, July 28 12:00	Poster Session, Track C
Jaime H. Vera*	Inflammatory and socioeconomic predictors of depression in people with HIV: an 11-year study in three African countries (TUPEB070)	Tuesday, July 28 12:00	Poster Session, Track B
Sandhya Vasan†	The road ahead for vaccine science	Wednesday, July 29 08:30	Plenary Session: The future of HIV prevention
Alexandra Schuetz	Mucosal NK cells are associated with reduced mucosal reservoir and systemic inflammation during acute HIV-1 infection (WEPEA017)	Wednesday, July 29 12:00	Poster Session, Track A
Tyler Hamby on behalf of Alexus Reynolds	Demonstrated need for integrated care strategies in sub-Saharan Africa: a harmonized cross-sectional analysis of non-communicable diseases across two cohorts (WEPEC200)	Wednesday, July 29 12:00	Poster Session, Track C
Natalie Burns	Trajectories of PrEP use among adolescents and adults with behavioral risk for HIV in Kenya and Uganda (WEPEC258)	Wednesday, July 29 12:00	Poster Session, Track C
Trevor Crowell	Infectious and non-infectious illnesses after COVID-19: a multi-cohort harmonized analysis of people with HIV on three continents (WEPEB064)	Wednesday, July 29 12:00	Poster Session, Track B
Emmanuel Baja*	Prevalence, anatomic distribution, and correlates of Chlamydia trachomatis and Neisseria gonorrhoeae among people vulnerable to HIV in Manila, Philippines (WEPEC205)	Wednesday, July 29 12:00	Poster Session, Track C
Carlo Sacdalan*	Integrating mental health support in an analytic treatment interruption HIV remission trial (WEPEB424)	Wednesday, July 29 12:00	Poster Session, Track D
Luca Schifanella*	Loss of efficacy in RV-144-like vaccine regimen in macaques by replacing vectored ALVAC-HIV with DNA vaccine (WEPEA031)	Wednesday, July 29 12:00	Poster Session, Track A
Julie Ake†	Panel Discussion	Wednesday, July 29 18:00	Satellite Session: Gene engineering for HIV cure
Tyler Hamby†	Predictors of depressive symptoms in people with HIV: a harmonized analysis of cohorts in Thailand, Nigeria, Kenya, Uganda and Tanzania	Thursday, July 30 10:45	Oral Abstract Session: Ageing with HIV: Live long, live strong
Sinmanus Vimontpatranon†	Different distributions of mucosal antigen specific B cells in the gastrointestinal tract during SHIV infection (OAA2704)	Thursday, July 30 10:45	Oral Abstract Session: Advances in HIV immunology
Natalie Burns	Substance use among adolescent and adult males with behavioral risk for HIV in Metropolitan Manila, Philippines (THPED375)	Thursday, July 30 12:00	Poster Session, Track D
Ornella Leukou Nzoutchoum	Trends in known versus newly identified people living with HIV elicited through index testing in Kenya, Tanzania, and Uganda (2019-2024): a retrospective analysis (THPEE592)	Thursday, July 30 12:00	Poster Session, Track E
Donn Colby	Long-term clinical outcomes are good at 5 years after ATI among participants in early-phase HIV cure studies (THPEB121)	Thursday, July 30 12:00	Poster Session, Track B
Genoveffa Franchini*†	Preclinical data supporting “first in humans” clinical testing of V1-deleted HIV envelope immunogens in the phase-I CLEAR HIV vaccine trial (OAA3003)	Thursday, July 30 15:00	Oral Abstract Session: Gen V: Next generation of HIV vaccines
Vamsi Vasireddy†	Maintaining continuity of HIV services in the Armed Forces of the Philippines: a public health and sustainability approach (OAE3106LB)	Thursday, July 30 16:30	Oral Abstract Session: Prevention in practice: Real-world advances in HIV prevention delivery
Lydie Trautmann†	Treatment interruption and resumption: lessons from the MHRP cure trials in Thailand	Thursday, July 30 18:00	Satellite Session: Treatment interruption and resumption, learning from HIV cure trials

* - MHRP collaborator † - oral presentation

HIV Unwrapped

Plenary speaker Dr. Sandhya Vasan worked with an emerging Brazilian designer to develop a unique garment that reflects HIV vaccine science presented at AIDS 2026. See the runway show at the opening ceremony on Monday, July 27 at 18:00. The Unwrapped exhibition will open at the Global Village on Tuesday 11:30.
